Independent Auditors' Report

To the Board of Trustees of
Scholarship America, Inc.

We have audited the accompanying financial statements of Scholarship America, Inc. (Scholarship America), which comprise the statements of financial position as of December 31, 2020 and 2019, and the related statements of activities, cash flows and functional expenses for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Scholarship America as of December 31, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information included on pages 23 through 24 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Notes to Financial Statements
December 31, 2020 and 2019

1. Organization and Significant Accounting Policies

Organization

Scholarship America, Inc. (Scholarship America) is a nonprofit corporation organized under the laws of the Commonwealth of Massachusetts to make students' dreams possible, regardless of financial status, through scholarships and other support. Until January 2003, the corporation was known as Citizens' Scholarship Foundation of America. Scholarship America is the nation's largest private scholarship provider driven to ensure that any student pursuing higher education receives the support they need. For over 60 years, Scholarship America has invested in student success through the design and management of custom education assistance programs with a focus on delivering financial and other supports to students in need to fill gaps and promote degree completion.

The financial statements do not include assets, liabilities, revenues or expenses of the individual Dollars for Scholars® chapters, because these chapters have independent Boards of Directors and Scholarship America does not have control over these organizations.

In fiscal year 2002, the Families of Freedom Scholarship Fund (the Fund) was created to provide education assistance for postsecondary study to financially needy dependents of those killed or permanently disabled as a result of the terrorist attacks on September 11, 2001, and during the rescue activities related to those attacks. The Fund is intended for children and spouses of the victims, including airplane crew and passengers, World Trade Center and Pentagon workers and visitors, and rescue workers, including firefighters, emergency medical personnel and law enforcement personnel. Assistance from the Fund must be used to defray costs of education at accredited colleges, universities, or vocational-technical schools based in the United States. Scholarship America may from time to time assess a charge to income of the Fund in an amount reasonably calculated to reimburse Scholarship America's direct and indirect costs incurred in the administration of the Fund. The Fund is due to sunset in 2030.

Basis of Presentation

The financial statements of Scholarship America have been prepared on the accrual basis of accounting.

Significant Accounting Policies

The accounting policies of Scholarship America conform to U.S. generally accepted accounting principles (GAAP). The significant accounting policies followed by Scholarship America are set forth below:

Net Assets

Net assets, revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of Scholarship America and changes therein, are classified and reported as follows:

Without Donor Restrictions - This classification contains net assets that are not subject to donor-imposed stipulations.

With Donor Restrictions - This classification includes net assets subject to donor-imposed stipulations that will be met by the action of Scholarship America and/or the passage of time. Some net assets with donor restrictions include a stipulation that assets provided be maintained permanently (perpetual in nature) while permitting Scholarship America to expend the income generated by the assets in accordance with the provisions of additional donor imposed stipulations or a Board approved spending policy.

Scholarship America, Inc.

Notes to Financial Statements
December 31, 2020 and 2019

Board Designated Net Assets

Scholarship America's Board of Trustees has the ability to designate identified amounts of net assets without donor restrictions to be used by management for specific future projects or activities. These designations can be modified or removed by the Board of Trustees at any time. The Board of Trustees has designated a portion of Scholarship America's net assets without donor restrictions for the endowment (Note 10) and for strategic initiatives.

Scholarship Revenue and Expense

In situations where Scholarship America has variance power with respect to the determination of the beneficiary, scholarship revenue and the related scholarship distribution expense is recognized in the statement of activities. Variance power is the unilateral ability to redirect the use of the transferred assets to another beneficiary. Scholarship programs where the beneficiary has been specified by the donor or the determination of the beneficiary is under the control of another third party are treated as agency transactions and are not reported as scholarship revenues or scholarship distribution expenses. Recognizing that designated scholarships (agency transactions) are a significant element of in the statements activities; they are included in scholarships raised and deducted from that amount to calculate scholarship revenue.

Scholarship revenue is recognized in the financial statements as a contribution when Scholarship America has the unconditional right to the assets contributed.

Operating Measure

Scholarship America's operating measure includes all activity other than contributions designated by the Board of Trustees for strategic initiatives.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash held in bank accounts and temporary investments with original maturities of less than three months when purchased. Scholarship America maintains cash and cash equivalent accounts, which at times, may exceed federally insured limits. Scholarship America has not experienced any losses from maintaining cash and cash equivalent accounts in excess of federally insured limits for the years ended December 31, 2020 and 2019. Management believes it is not subject to any significant credit risk on its cash and cash equivalent accounts.

Accounts Receivable

Accounts receivable are stated at amounts management expects to collect for services and are based on contracted fee schedules. Payment terms are typically net 30 days from date of invoice, but may vary in specific cases. An allowance for doubtful accounts is provided based upon a review of outstanding receivables, historical collection information and specific program circumstances. Amounts deemed uncollectible are written off in the period such amounts are determined. Delinquent accounts are not charged a service fee.

Investments

Investments, excluding certificates of deposit, are reported at fair value. Certificates of deposit are reported at cost, which approximates fair value. Investments in alternative investments are recorded at net asset value as a practical expedient to fair value.

Property and Equipment

Expenditures for the acquisition of property and equipment are capitalized at cost. Donated property and equipment is capitalized at fair value on the date of receipt. Scholarship America capitalizes property and equipment additions in excess of \$1,500. Depreciation is provided using the straight-line method over estimated useful lives as follows:

	<u>Years</u>
Building and improvements	35*
Furniture and equipment	3 - 12
Internally developed software	3 - 7

*Leasehold improvements are depreciated over the remaining life of the lease.

Impairment of Long-Lived Assets

At each reporting date, Scholarship America evaluates the carrying amount of its long-lived assets. In the event that facts and circumstances indicate that the cost of long-lived assets may be impaired, an evaluation of recoverability would be performed. If an evaluation of impairment is required, the estimated future undiscounted cash flows associated with the asset would be compared to the asset's carrying value to determine if an adjustment to fair value or discounted cash flow value is required. There were no impairments in 2020 or 2019.

Intangible Assets

Acquired intangible assets are the result of purchased customer contracts. These assets are valued at actual purchase price. The intangible assets are amortized over 10.1 years, which is the average historical duration for client relationships in the scholarship management business line. Amortization expense for each of the years 2021 and 2022 will be \$203,558, and \$144,306 in 2023.

Contributed Services

A number of volunteers have made significant donations of their time to program and support functions. The value of this contributed time does not meet the criteria for recognition of contributed services and, accordingly, is not reflected in the accompanying financial statements.

Contributions

Unconditional contributions, including promises to give, are recognized as revenues in the period received and are reported as increases in the appropriate categories of net assets in accordance with donor restrictions. Expirations of donor-imposed restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions. Donor restricted contributions whose restrictions are met in the same reporting period are reported as net assets with donor restrictions and released to net assets without donor restrictions to reflect the expiration or fulfillment of such restrictions.

Conditional promises to give - that is, those with a measureable performance or other barrier and a right of return or release from future obligations - are not recognized until the conditions on which depend have been met.

Unconditional promises to give (pledges) are recorded as contributions receivable using a discount rate of 3 percent for both 2020 and 2019. Additionally, an allowance for uncollectible contributions is provided based on management's judgment, including factors such as prior collection history and the nature of fundraising activity.

Scholarship America, Inc.

Notes to Financial Statements

December 31, 2020 and 2019

Contributions of land, buildings and equipment are recorded at fair market value at the date of the gift. Contribution revenue is recorded as net assets without donor restrictions unless explicit donor stipulations specify how the donated assets must be used. Contributions of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as donor restricted net assets. Restrictions are considered met and an appropriate amount reclassified to net assets without donor restrictions when the asset is placed in service.

Scholarships Payable and Refundable Deposits

Scholarships payable represent awards that have been made that Scholarship America has not yet distributed to the beneficiaries. Refundable deposits represent amounts held by Scholarship America for scholarship programs that, under terms of the program agreement, are refundable or revocable at the discretion of the program sponsor. Refundable deposits also include amounts held by Scholarship America in connection with agreements that have stipulations that the assets be passed on to specific beneficiaries.

Scholarship Program Management Fees

Scholarship program management fees are recognized as revenues in the statements of activities as the performance obligations are satisfied over the contract period. Performance obligations are outlined in each contract's program description or statement of work. Generally, the performance obligations include:

- Program design, production of application materials (on-line site) and opening of application
- Receipt, acknowledgement and processing of applications
- Selection of recipients and notifications
- Distribution of scholarship awards and final program reporting

As there is not a stand-alone transaction price observable for each program obligation, the transaction price (management fee) has been allocated to the various performance obligations (milestones) based on management's estimates of each milestone's relative value of the total value of the services to be provided under the contract. Management's estimates of the allocations are primarily based on historical time studies for level of effort to complete specific milestones over the course of the scholarship program cycle.

Scholarship program management fees received prior to the completion of specific performance obligations are deferred to the applicable period based on the contract program schedule. Amounts deferred in the statements of financial position at December 31, 2020 and 2019 are generally recognized as revenue in the following year.

Grants

Donor restricted grants are recognized as revenue and support with donor restrictions, and recorded as releases from restriction only to the extent that expenses have been incurred during the period for the purpose specified in the grant. In instances that grants include measureable performance obligations or other barriers and a right of return or release from future obligations, these grants are not recognized as revenue until the conditions on which they depend have been met. Advances of conditional grants are recorded as deferred revenue until conditions are met.

Functional Expenses

Scholarship America's financial statements segregate expenses by function, including program specific, general and administration and fundraising. Expenses are charged directly to specific functions when practicable. Expenses not identified as relating to specific functions such as depreciation and amortization, interest, and other facility related expenses are allocated primarily based on direct salary costs or headcount.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Tax Status

The Internal Revenue Service has determined that Scholarship America is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. Scholarship America is also exempt from state income taxes. However, any unrelated business income may be subject to taxation.

Scholarship America follows the accounting standards for contingencies in evaluating uncertain tax positions. This guidance prescribes recognition threshold principles for the financial statement recognition of tax positions taken or expected to be taken on a tax return that are not certain to be realized. Under this guidance, Scholarship America may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. Examples of tax positions include the tax-exempt status of Scholarship America and various tax positions related to potential sources of unrelated business income. No liability has been recognized by Scholarship America for uncertain tax positions as of December 31, 2020 and 2019. Scholarship America's tax returns are subject to review and examination by federal and state authorities.

Retirement Plan

Scholarship America offers a 403(b) retirement plan to its employees. Employee participation is optional. Historically, Scholarship America has provided a matching contribution to employees participating in the plan. Scholarship America's matching contribution for the years ended December 31, 2020 and 2019 was 3 percent. Scholarship America's contributions to the plan totaled \$317,980 and \$259,965 for the years ended December 31, 2020 and 2019, respectively.

New Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-02, *Leases*. ASU No. 2016-02 was issued to increase transparency and comparability among entities. Lessees will need to recognize nearly all lease transactions (other than leases that meet the definition of a short-term lease) on the statement of financial position as a lease liability and a right-of-use asset (as defined). Lessor accounting under the new guidance will be similar to the current model. ASU No. 2016-02 is effective for fiscal years beginning after December 15, 2021. Early application is permitted. Upon adoption, lessees and lessors will be required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach, which includes a number of optional practical expedients that entities may elect to apply. Scholarship America is assessing the impact this standard will have on its financial statements.

2. Liquidity and Availability

The following table reflects Scholarship America's financial assets as of December 31, 2020 and 2019, reduced by amounts not available for general expenditures within one year. Financial assets are considered unavailable when illiquid or not convertible to cash within one year. Other financial assets that are excluded from this measure of liquidity include endowments and accumulated earnings restricted by donors or Scholarship America's Board of Trustees, and assets held for others.

Financial assets not available for expenditure within one year		
Financial assets available to meet cash needs for general purposes within one year	<u>\$ 7,710,641</u>	<u>\$ 6,408,387</u>

As of December 31, 2020 and 2019, Scholarship America had liquid assets on hand to cover approximately 157 and 137 days of operating expenses, respectively. Scholarship America's practice is to structure its financial assets to be available as its general expenses, liabilities and obligations come due and targets a minimum of 90 days of operating expense coverage at any point in time.

Cash in excess of daily requirements is typically invested in short-term, liquid securities. Scholarship America's Board of Trustees has established a board designated endowment fund (deducted from financial assets in the table above) that may be drawn upon in the event of financial distress or an immediate liquidity need resulting from events outside the typical life cycle of converting financial assets to cash or settling financial liabilities. As of December 31, 2020 and 2019, this board designated endowment fund represents approximately 45 and 47 days of operating expenses, respectively. Scholarship America also has available a \$2,000,000 line of credit, representing approximately 41 days of operating expenses.

Notes to Financial Statements
December 31, 2020 and 2019

Investments, in general, are subject to various risks, including credit, interest and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

5. Fair Value Measurements

Fair Value Hierarchy

Fair value is defined in the accounting guidance as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the assets or liability in an orderly transaction between market participants at the measurement date. Under this guidance, a three-level hierarchy is used for fair value measurements which are based on the transparency of information, such as the pricing source, used in the valuation of an asset or liability as of the measurement date.

Financial instruments measured and reported at fair value are classified and disclosed in one of the following three categories.

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. This includes quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability or market-corroborated inputs.

Level 3 - Inputs are unobservable for the asset or liability. Unobservable inputs reflect the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk) using the best information available in the circumstances, which may include using the reporting entity's own data.

Valuation Techniques and Inputs

Level 1 - Level 1 assets include investments in cash equivalents (consisting primarily of money market funds), equity mutual funds, equities, fixed income mutual funds and master limited partnership and other mutual funds for which quoted prices are readily available.

Level 2 - Level 2 assets include investments in U.S. government securities, and corporate bonds and notes for which quoted prices are not readily available. The fair values are estimated using Level 2 inputs based on multiple sources of information, which may include market data and/or quoted market prices from either markets that are not active or are for the same or similar assets in active markets.

There have been no changes in the techniques and inputs used as of December 31, 2020 and 2019.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. The schedules within this note are not intended to indicate the volatility of the investments.

While Scholarship America believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Scholarship America uses the net asset value (NAV) as a practical expedient to determine fair value of all underlying investments which (a) do not have a readily determinable fair value; and (b) are in investment companies or similar entities that report their investment assets at fair values.

Scholarship America, Inc.

Notes to Financial Statements

December 31, 2020 and 2019

The following table lists the alternative investments in which NAV was utilized as the practical expedient for estimating fair value as of December 31, 2020 and 2019:

Investment Type	Unfunded Commitments	2020 Fair Value	2019 Fair Value	Redemption Frequency	Redemption Notice Period	Remaining Life (Years)
Alternative Investments :						
Grosvenor Institutional Partners, L.P. (a)	\$ -	\$ -	\$ 3,066,279	(b)	(b)	N/A
Millenium International(c)	2,277,000	2,190,800	-	(d)	(d)	N/A

- (a) Grosvenor Institutional Partners, L.P. is a multi-strategy fund of funds which allocates assets to a diverse group of third-party investment managers that employ a range of alternative strategies. The fund's investment objectives are to generate a superior and risk-adjusted rate of return with low volatility and to preserve capital during challenging market environments. Both quantitative and qualitative analysis of investment managers and their strategies are used to select the specific underlying investment firms. Scholarship America liquidated its investment in this fund during 2020.
- (b) A Limited Partner may withdraw, as of the end of any calendar quarter, all or any portion of their account by giving at least 70 days prior written notice. If a Partner withdraws less than substantially all of their balance, the withdrawal will be distributed within 60 days. If a Partner withdraws all or substantially all of their balance, a distribution of 90 percent of the amount will be made within 60 days with the remainder being distributed promptly after the completion of the fiscal year audit.
- (c) Millenium International is a multi-strategy, single manager, relative value hedge fund manager. The manager allocates capital across a variety of proprietary, internal trading teams who invest that capital in the relative value fundamental equity, quantitative trading, equity arbitrage, fixed income, commodity and other investment strategy sectors. The fund's investment objective is to produce equity like returns, with significantly less risk, while maintaining low correlations to the stock and bond markets.
- (d) A Limited Partner may withdraw capital from Millennium International, Ltd. on a quarterly basis with 90-day notice. Once the liquidity request is received by Millennium International, Ltd, the investor is repaid over the subsequent 20-quarters, with 5 percent of their outstanding capital balance being distributed each quarter (i.e., as a result, a five year period is required to completely exit the fund).

6. Line of Credit Agreement

Given the economic uncertainty in early 2020 due to the Covid-19 pandemic Scholarship America increased the size of its bank line of credit with Bremer Bank, NA from \$1,000,000 to \$2,000,000. The maturity date of the bank line of credit remained September 1, 2020. In September 2020, Scholarship America renewed the \$2,000,000 bank line of credit financing agreement with Bremer Bank, NA. The line of credit bears interest at the prime rate (as published from time to time in the Wall Street Journal) minus 0.25 percent with a floor of 3.0 percent. At December 31, 2020 the interest rate was 3.0 percent. Borrowings on the line of credit are secured by assets of Scholarship America including equipment and accounts receivable. The line of credit matures on September 1, 2021 and it is management's intention to renew the facility. At December 31, 2020, there were no borrowings under this agreement.

Under the terms of the line of credit agreement, Scholarship America is required to maintain a specified debt service coverage ratio.

7. Paycheck Protection Program Note Payable

On April 9, 2020, Scholarship America entered into a new loan facility with Bremer Bank, NA under the government enacted Paycheck Protection Program (PPP) (part of the Coronavirus Aid, Relief and Economic Stability Act) administered by the Small Business Administration. Scholarship America borrowed \$2,229,200 under the loan facility. The loan carries a fixed interest rate of 1 percent and matures on April 9, 2022. No payments were required for the first six months. Subsequent regulations deferred payments until the date on which the amount of forgiveness is remitted to the lender or, if Scholarship America fails to apply for forgiveness within ten months after the covered period, then payment of principal and interest shall begin on that date. Borrowings under this facility are unsecured. Loans under the PPP have a loan forgiveness feature based on the level of payroll, rent and utilities costs over a twenty-four week period commencing on the date of the loan. The PPP loan is recorded as a refundable advance in the December 31, 2020 statement of financial position. Scholarship America applied for forgiveness in December 2020 and has not received notification of forgiveness.

8. Long-Term Debt

A summary of long-term debt as of December 31 is as follows:

	<u>2020</u>	<u>2019</u>
Note payable to Bremer Bank	\$ 2,708,993	\$ 2,847,836
Less current maturities	<u>(145,117)</u>	<u>(138,932)</u>
Long-term balance at December 31	<u>\$ 2,563,876</u>	<u>\$ 2,708,904</u>

Aggregate annual maturities of long-term debt at December 31, 2020 are as follows:

Years ending December 31:	
2021	\$ 145,117
2022	151,229
2023	157,599
2024	<u>2,255,048</u>
	<u>\$ 2,708,993</u>

Scholarship America has a note payable through a term loan facility with Bremer Bank, NA. The term loan allowed for borrowing of up to \$3,480,000 over an eighteen month draw period. During this initial draw period, only monthly interest payments were required. The term loan carries a fixed interest rate of 4.09 percent. The 18 month draw period ended in June 2019. The note is payable in quarterly installments consisting of principal and interest through September 1, 2024, at which time a lump sum payment is due. Borrowings under this facility are secured by a mortgage and security interest granted to the creditor by Scholarship America. The net book value of the security interest was \$1,539,326 at December 31, 2020. Proceeds of the note were used to repay an existing note payable and to fund technology investments. Under the terms of the note payable, Scholarship America is required to maintain a specified debt service coverage ratio and debt to tangible net worth ratio as measured at the end of each year.

9. Endowment Funds

Scholarship America's endowment consists of approximately 35 individual funds established for a variety of purposes including both endowment funds restricted by the donor and funds designated by the Board of Trustees to function as endowment. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as an endowment, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Board of Trustees of Scholarship America has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Scholarship America classifies as net assets with donor restrictions- held in perpetuity (1) the original value of the initial gift donated to the endowment; (2) the original value of subsequent gifts donated to the endowment fund; and (3) any earnings and gains/losses required by the donor to be added to the original value of the endowment fund. The remaining portion of the fund, which consists of earnings and gains/losses from the investment of such funds net of expenditures, is classified as net assets with donor restrictions until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the endowment fund;
- (2) The purposes of the organization and the endowment fund;
- (3) General economic conditions;
- (4) The possible effect of inflation or deflation;
- (5) The expected total return from income and the appreciation of investments;
- (6) Other resources of the organization;
- (7) The investment policy of the organization.

Endowment net asset composition by type of fund consists of the following for the years ended December 31, 2020 and 2019:

	2020		
	Without Donor Restrictions	With Donor Restrictions	Total
Donor-restricted endowment funds	\$ -	\$ 20,436,786	\$ 20,436,786
Board-designated endowment funds	2,205,836	-	2,205,836

Funds With Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the UPMIFA requires Scholarship America to retain as a fund of perpetual duration. At December 31, 2020 and 2019, there were no underwater endowment investments. Management has interpreted state law to permit prudent spending from underwater endowments.

Return Objectives and Risk Parameters and Strategies Employed for Achieving Objectives

Each endowment fund is supported by an underlying agreement with the donor in which the spending level and the underlying investment mix is outlined (if no mix is specified, the selection defaults to the conservative portfolio). Fund performance is expected to at least equal the target rates of return modeled for each portfolio. Typically, dividends and interest are available for expenditure because the funds focus on current need rather than maintaining a perpetual fund of constant purchasing power.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, Scholarship America relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Scholarship America targets a diversified asset allocation including asset classes such as public equities, fixed income and alternative assets in order to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How Investment Objectives Relate to Spending Policy

The board-designated endowment is currently invested in money market funds. To date, all earnings have been returned to the endowment.

A separately managed donor-restricted endowment, previously established for the Northeast region is invested in a balanced indexed portfolio. The Board of Trustees allows 5 percent of a 12-quarter moving average to be used for operations, as needed. During the years ended December 31, 2020 and 2019, \$89,260 and \$87,944 was released for operations, respectively.
